

SAFEGUARDING STATEMENT

At Christ Church we take safeguarding seriously and aim at best practice. We are committed to working hard to safeguard children and young people, vulnerable adults and those in abusive relationships.

We believe that every person has a value and dignity that comes directly from their creation in God's own image, and we believe that Christ calls us to love and care for all. This implies a duty to ensure all who come into this church and all in this parish are protected from harm.
